[Why does the sky appear black to an astronaut instead of blue?](#)

On Earth, the sky appears blue to us because the tiny particles present in the atmosphere scatter the blue colour from the incoming sunlight. However, when an astronaut is in outer space, there is no

Why is the sky white instead of blue?

The sky appears blue instead of violet because of

the way Earth's atmosphere scatters sunlight. Blue light is scattered more easily than violet light, causing the sky to appear blue to our eyes.

DUSHANBE ENERGY STORAGE CABINET PROJECT

Smart integration features now allow multiple industrial systems to operate as coordinated energy networks, increasing cost savings by 30% through peak shaving and demand charge management.

[Why does the sky appear dark instead of blue to an astronaut](#)

To an astronaut, the sky looks dark and black instead of blue because there is no atmosphere containing air in the outer space to scatter sunlight. So, there is no scattered light to
