

Energy 15GW solar module project

Energy 15GW solar module project

[A new approach could fractionate crude oil using much less energy](#)

MIT engineers developed a membrane that filters the components of crude oil by their molecular size, an advance that could dramatically reduce the amount of energy needed for crude oil

[New facility to accelerate materials solutions for fusion energy](#)

The new Schmidt Laboratory for Materials in Nuclear Technologies (LMNT) at the MIT Plasma Science and Fusion Center accelerates fusion materials testing using cyclotron proton beam

[Saudi ACWA Power Signs Huge 15 GW Solar and Wind Deals to](#)

Saudi Arabia's ACWA Power has taken a major step in the country's energy transition by signing new power agreements for 15 gigawatts of renewable energy. These agreements, known as

[Making clean energy investments more successful](#)

New research emphasizes the importance of well-validated models and forecasting tools in evaluating choices for investments in clean energy technologies and policies by governments and

[15GW! ACWA Power leads \\$8.3 billion renewable](#)

[Saudi Arabia signs \\$8.3bn deals for 15GW solar and](#)

Saudi Arabia's state-owned power procurement company, Principal Buyer, has entered agreements worth SR31bn (\$8.3bn) with a consortium led by

[How artificial intelligence can help achieve a clean energy future](#)

A look at how AI can be used to help support the clean energy transition by helping to manage power grid operations, plan infrastructure investments, guide the development of novel

[Explained: Generative AI's environmental impact](#)

This signing brings the total number of renewable energy projects of Saudi International Power and Water Company in Saudi Arabia to 21, with a

[Giving buildings an "MRI" to make them more energy-efficient and](#)

Founded by a team from MIT, Lamarr.AI utilizes drones, thermal imaging, and AI to identify energy waste and structural issues in buildings and recommend retrofits.

[MIT engineers create an energy-storing supercapacitor from ancient](#)

MIT engineers created a carbon-cement supercapacitor that can store large amounts of energy. Made of just cement, water, and carbon black, the device could form the basis for

MIT News explores the environmental and sustainability implications of generative AI technologies and applications.

[MIT Energy Initiative conference spotlights research](#)

At the MIT Energy Initiative's Annual Research Conference, industry leaders agreed collaboration is key to advancing critical technologies amidst a changing energy landscape.

[ACWA Power seals \\$8.3B Saudi deal for 15 GW green](#)

SPPC has signed \$8.3 billion agreements with Acwa Power, Badeel, and Aramco Power for 15 GW renewable projects across Saudi Arabia under

[Next-generation geothermal energy: Promise, progress, and challenges](#)

Geothermal energy, a clean, continuous energy source accessible in many locations, has been slow to catch on. Nearly 2,000 years ago, the Romans made extensive use of geothermal

[Study: Fusion energy could play a major role in the global response to](#)

Investigators in the MIT Energy Initiative and the MIT Plasma Science and Fusion Center have found that - depending on its future cost and performance - fusion energy has the potential

[Saudi Arabia Signs Deal for 15 GW of New Solar and Wind Projects](#)

With a total investment of approximately \$8.3 billion (over SAR 31 billion), the projects are expected to deliver a combined capacity of 15,000 MW, comprising 12,000 MW of solar PV and
