The advertisement features three stacks of white lithium battery packs on wheels, each with a digital display and control panel. The packs are arranged in a row, with the 20 Kwh pack on the left, the 30 Kwh pack in the middle, and the 50 Kwh pack on the right. The background shows a house and a building. The text highlights the high conversion efficiency and communication capabilities (CAN, RS485, WIFI, 4G, and Blue tooth) of the batteries. It also mentions a thick shell for protection and BMS customization support.

Overview

Here are some key points: Cost: Lithium-ion batteries for storage are averaging €450-€600 per kWh¹. Investments: The country is attracting investments in battery factories, with projects worth up to EUR 360 million underway².
