

Grid-connected wind power generation system in dubai uae

Overview

Developed by Abu Dhabi Future Energy Company (Masdar), the Wind Program marks a new milestone in introducing utility-scale wind power to the UAE's energy mix. It leverages advances in technology, material science and aerodynamics to capture low wind speeds on utility scale.

Grid-connected wind power generation system in dubai uae

UAE adds wind to its energy mix

The UAE has inaugurated its first large-scale utility wind power project, as the Gulf state strives to boost its renewable energy capacity ahead of hosting the Cop28 climate summit later this
