

Harare texas energy storage

Overview

Utilities in California are required by a 2013 law to provide significant battery storage by 2024. The Moss Landing Power Plant site has since been chosen as California's primary location to provide battery based energy storage in order to better utilize renewable energy sources such as solar and wind on a grid-wide commercial scale. On June 29, 2018 Vistra Corp announced that it planned on building at the Moss La.
