Electricity sector in Iraq

Overview Generation History Iraq rebuilding projects Economics of the electricity sector in Iraq

The 1990 installed capacity of 9,295 MW consisted of 120 power-generating units in various thermal, gas turbine and hydroelectric power stations. Approximately 70% of Iraq's installed power generating capacity was damaged or destroyed during the 1991 Gulf War. All major power stations were damaged and nearly 80% of the gas turbines units were affected. After 1991, only about 50 units were available, with a generation capacity of 2,325 MW. The construction work on three new large
