

# How to get power from photovoltaic inverter

## Overview

---

PV panels generate DC power and an inverter changes that into usable AC electricity. We will also explain the connection procedure for the charge controller and the battery.

### Understanding dictionary.get in Python

As you have found, get just gets the value corresponding to a given key. sorted will iterate through the iterable it's passed. In this case that iterable is a dict, and iterating through a dict

### Understanding .get() method in Python

Here the get method finds a key entry for 'e' and finds its value which is 1. We add this to the other 1 in characters.get (character, 0) + 1 and get 2 as result.

### What is the { get; set; } syntax in C#?

get and set are accessors, meaning they're able to access data and info in private fields (usually from a backing field) and usually do so from public properties (as you can see in the above example).
