

Input and output of solar power generation at home

Lithium Solar Generator: \$150

Overview

Sunlight strikes rooftop solar panels, which convert that light into direct (DC) electricity; a solar inverter turns DC electricity into alternating (AC) power that your appliances can use.

Input and output of solar power generation at home

Input Frequencies

Just to clarify right away. I understand the difference between input and output frequencies, for the most part. Recently I was parked across the street from the HQ of my City's

GMRS input and output frequency help

So I'm new to GMRS and was just looking for some clarification. If I wanted a repeater and I had the frequency 462.675, that is the receive frequency correct? If that's true, I'm assuming
