

Modular battery cabinets with wide temperature range for use in Northwest shopping malls

Modular battery cabinets with wide temperature range for use in N

EQStore M

Built to perform in even the harshest environments, the system operates reliably across a wide temperature range (-20°C to 55°C) and in high-humidity

Modular

Things like houses, cars, airplanes, and computers are all often constructed in a modular way. Rather than being built all at once, they are built in separate parts that get assembled into a finished product.

Modular Homes

Constructing a modular home involves creating building modules in a controlled factory environment. (Traditional homes, meanwhile, are built entirely at the construction site.)

Modular Homes

Simply put, modular homes have sections that are built in a factory, rather than being fully built on a home site. These parts are then transported to the site and assembled by a builder.
