

# New Energy Storage Mold Silicone

## Overview

---

Here, we present a simpler alternative to Dielectric Elastomers (DEs) generators, which allows energy storage and electricity generation: an optimized silicone rubber formulation that achieves high stretchability while being more efficient, easier to prepare, and eliminating.

[Is JavaScript's "new" keyword considered harmful?](#)

It is NOT 'bad' to use the new keyword. But if you forget it, you will be calling the object constructor as a regular function. If your constructor doesn't check its execution context then it won't notice that 'this'

**How to open link in a new tab in HTML?**

Note I previously suggested blank instead of `_blank` because, if used, it'll open a new tab and then use the same tab if the link is clicked again. However, this is only because, as GolezTrol
