[What is the Difference Between 'new object\(\)' and 'new {}' in C#?](#)

Note that if you declared it `var a = new { };` and `var o = new object();`, then there is one difference, former is assignable only to another similar anonymous object, while latter being object, it

When to use "new" and when not to, in C++?

You should use new when you wish an object to remain in existence until you delete it. If you do not use new then the object will be destroyed when it goes out of scope.

[Is JavaScript's "new" keyword considered harmful?](#)

It is NOT 'bad' to use the new keyword. But if you forget it, you will be calling the object constructor as a regular function. If your constructor doesn't check its execution context then it won't notice that 'this'

javascript

83 new() describes a constructor signature in typescript. What that means is that it describes the shape of the constructor. For instance take `{new(): T; }`. You are right it is a type. It is the type of a class
