

Port User Container Fixed ODM

Overview

Change the Adapter 1 from "Attached to: NAT" into "Bridged Adapter. " This will ensure that you can access the WebODM interface and it gets the IP from your DHCP where you can give it static lease so it's easy to bookmark.

Port User Container Fixed ODM

[Can't join Homegroup after leaving it from Win 8.1 computer](#)

The printer is connected to a USB port on a Windows 7 computer with a Homegroup setup, documents, Photos and Printer sharing turned on. There are two other computers; a Windows
