

Renewable energy growth libya

Overview

Libya has set a target of reaching 4 GW of renewable energy capacity by 2035, positioning solar and wind as central pillars of its long-term power strategy. Progress on this front is being anchored by TotalEnergies' 500 MW Sadada solar project, which is scheduled to begin production.

Renewable energy growth libya

Renewable Energy

Renewable energy is energy from sources we cannot run out of. Some types of renewable energy, like wind and solar power, come from sources that are not depleted when used.

[WELCOME TO THE RENEWABLE ENERGY AUTHORITY OF LIBYA](#)
