[Solar-Powered Container Schools: Energy-Education Revolution](#)

Imagine converting a rusting shipping container - those 20-40ft steel boxes stranded in ports - into a climate-smart classroom. Now power it with solar panels and lithium batteries.

[Majuro School uses off-grid solar-powered containers for](#)

Below is a narrative description of how a solar-powered shipping container is revolutionising the face of access to global energy, off-grid energy, grid backup, and clean

[Submodule won't clone with recursive strategy](#)

I've solved the problem. I needed to use relative paths in my submodule file instead of the full links. So instead of using `https://git.school/backend-project.git` I used `../backend-project.git`.

Internal API error using Gitlab docker

Hi, We are self-hosting a Gitlab server for our computer sciences school and since some day; sometimes; when some users try to push their commits to the git server, they get a "Internal API

[Awty Unveils Carbon-Neutral Container Farm Thanks](#)

The school installed a 20-foot hydroponics shipping container, a 20-foot aquaponics shipping container, and a 14.4-kilowatt solar system with 48

[Revolutionary Solar Tech Inside a 20FT Shipping Container! #green](#)

From insulation and venting to patented solar reflectors, this build is revolutionizing renewable energy solutions.

Classroom Connections: Solar Provides

Thanks to the collaboration of students, teachers, staff, and local partners, this fall the longstanding Alabama-based program will send

[GitLab Web UI : custom/separate login page/route](#)

We have set up a self-hosted GitLab instance for our school that performs authentication using the Shibboleth SSO linked to the backend of our internal infrastructure.

About the GitLab for Education category

This category is the place to be for all things related to using GitLab at educational institutions around the world ?? We encourage current and future GitLab for Education Program

GitLab Education Program

Technology leadership at your school. Become a Campus Expert to receive training in public speaking, community leadership, technical writing, and software development from GitHub.

Gitlab for Education

We love the idea of helping students learn more with GitLab, but we do not have an official offering from our team for high school students. Right now, GitLab for Education only offers

[Awty school receives grant for carbon-neutral container farm](#)

The school installed a 20-foot hydroponics shipping container, a 20-foot aquaponics shipping container, and a 14.4-kilowatt solar system with 48 panels to power both containers to

[Unable to pay/enroll for GitLab Certified Associate on LevelUp](#)

I am getting: "Error: Either eCommerce is not enabled on this school, or a firewall or browser addon has prevented our eCommerce provider from loading" when trying to purchase

[I have to log in every time I access gitlab](#)

I access my gitlab through the school computer, no problem, it always remembers me. But at home I have two PCs, a gaming-laptop and a working-laptop, on both it logs me out every time.

[The LunaVault: Transform a 20-ft shipping container](#)

This ambitious endeavor transforms a standard 20-foot shipping container into a high-capacity, modular, and off-grid power system capable of
