

# Solar generator DC power

**2MW / 5MWh**  
**Customizable**

## Overview

---

This is a natural consequence of photovoltaic (PV) cell operation, where light excites electrons, generating a unidirectional flow of electricity. DC power is steady, unidirectional, and inherently efficient for storage, which is why it serves as the default electrical output.

## Solar generator DC power

---

### [Arizona's Top Rated Solar + Battery Company in Phoenix](#)

Whether you're considering a new solar installation, expanding your existing solar system, or adding a battery-only backup for uninterrupted power, our team builds the perfect system tailored to your needs.
