Solar energy is radiation from the Sun that is capable of producing heat, causing chemical reactions, or generating electricity. The total amount of solar energy incident on Earth is vastly in

[Solar Panel Stringing: Series vs Parallel Wiring](#)

Should solar panels be wired in series or parallel? Most residential grid-tied systems use series wiring because string inverters and hybrid inverters require high DC voltage input.

Solar energy

Solar technologies are categorized as either passive or active depending on the way they capture, convert and distribute sunlight and enable solar energy to be harnessed at different levels around the

What is plug-in solar (balcony solar)?

Plug-in solar, also called balcony solar, are solar panels that connect to a standard power outlet. They supply power directly to your home. They are a plug and play way to reduce our
