

# Solar power generation combiner box requirements

*Support photovoltaic input and AC mains input  
Suitable for home energy storage and emergency  
backup power supply*

The image features a large, white, rectangular solar power generation combiner box. To its right, there is a photograph of a modern, two-story house with a dark facade and a prominent gable window. Below the house photo, there is a list of requirements in italics. At the bottom right of the main image area, there is an inset box containing images of various household appliances: a range hood, a range, a refrigerator, a water dispenser, and a laptop.

## Solar power generation combiner box requirements
