[The 3 Different Types of Solar Power Systems Explained](#)

Grid-Tie Solar Power Systems
Off-Grid Solar Power Systems
Backup Solar Power Systems
Off-grid solar is best for delivering power to remote locations where there is no access to a utility line. Folks who live off the grid are solely responsible for generating their own electricity. This is usually accomplished by building an off-grid solar system that can cover a day's worth of electricity usage, with a backup generator to supplement. See more on [gogreensolar](#) Location: 1630 South Sunkist Street Ste E, Anaheim, 92806, California
