[Solar Photovoltaic: SPECIFICATION, CHECKLIST AND GUIDE](#)

About the Renewable Energy Ready Home Specifications Assumptions of the RERH Solar Photovoltaic Specification Builder and Specification Limitations

- 1.5 Document the solar resource potential at the designated array location
- 3.3 Install a conduit for the AC wire run from the designated inverter location to the electric service panel
- 4.2 Record the name and Web address of the electric utility service provider
- 5.1 Landscape Plan
- 5.2 Placement of non-array roof penetrations and structural building elements

Appendix A: RERH Labeling Guidance

The Renewable Energy Ready Home (RERH) specifications were developed by the U.S. Environmental Protection Agency (EPA) to assist builders in designing and constructing homes equipped with a set of features that make the installation of solar energy systems after the completion of the home's construction easier and less expensive. The specifications See more on Labels

Solar Warning Labels & NEC Compliant Electrical Labels , PV Labels
