

Solar power with grid backup in Malta

Overview

With government grants covering a significant portion of the cost, typical payback periods of just 5-7 years, and systems lasting 25+ years, solar energy delivers exceptional long-term value. Follow this step-by-step process to go from initial research to generating your own clean.

Solar power with grid backup in Malta

Solar power

Solar power, also known as solar electricity, is the conversion of energy from sunlight into electricity, either directly using photovoltaics (PV) or indirectly using concentrated solar power.
