Makecode Arcade stuck on splash screen

Hi As per title. I have recently replaced my desktop and when I attempt to access Makecode Arcade, it hangs at the splash screen. Will sit there all-day quite happily. This occurs in

[What are block objects, and how to use them](#)

The first splash block will output 9, and the second one will output undefined. That doesn't matter in a snippet like this, but in a big block of code it can cause some pretty nasty errors.
