

Who invented light emitting diode

Overview

Nick Holonyak Jr. (November 3, 1928 - September 18, 2022) was an American electronics engineer. He is noted particularly for his 1962 invention and first demonstration of a semiconductor laser diode that emitted visible light. This device was the forerunner of the first generation of commercial light-emitting diodes (LEDs). He was then working at a General Electric research laboratory.

Early life and careerNick Holonyak Jr. was born on November 3, 1928, in , to immigrants. His father worked in a. Holonyak was the first member of his family to receive any type of formal schooling.

Who invented light emitting diode

History of LED
